EXPERIENCE

Polyclinique Internationale de Laayoune

3 months

Full Stack Developer Intern

Laayoune, Morocco

- Gathered business requirements, designed architecture, and built a **paramedical staff management application** (PHP, Laravel, MySQL)
- Served as **technical liaison** between the development team and clinic stakeholders, ensuring on-time delivery
- Delivered a solution that streamlined HR workflows through an intuitive UI and automated scheduling processes

Al Hikma Medical Center

2 months

IT Administrative Intern

Laayoune, Morocco

- Optimized the **ZKbiotime** attendance system: resolved bugs, improved time-tracking processes, and simplified user access
- Trained HR managers on the platform and implemented a **proactive monitoring system** for absence and tardiness anomalies

PROJECTS

DescriptoAI | Vision-Language AI · BLIP · FastAPI · React · Hugging Face

- Built an **automated e-commerce product description generator** from images using a fine-tuned BLIP Vision-Language model
- Designed end-to-end pipeline: image preprocessing → Vision-Language inference → structured text generation
- Deployed on **Hugging Face Spaces** with a secured FastAPI backend (SSRF protection) and a React frontend

EstiCar | Machine Learning · Flask · Scikit-learn · Feature Engineering · XGBoost

- Developed a **vehicle price prediction platform** using ML regression models (Random Forest, XGBoost)
- Engineered features across brand, model, year, and mileage dimensions; achieved **>90% accuracy** on test set
- Built a Flask REST API and web interface enabling real-time price predictions for end users
